

BTWL-HUV Signal repeater

- + To be used together with a master clock of series BT-xxx-WL
- + For wireless communication with unlimited quantity of analogue and digital slave clocks inside the operation range
- + No impulse signal wiring necessary
- + Automatic adjustment of the wireless system after mains failures
- + Automatic summer-/winter time changes
- + Check-LED's for power supply and transmitter signal
- + System safety through encoded time telegram (no interferences with other systems)
- + without radio signal all radio slave clocks work with their own quartz time base in the meantime (no interruption)

Technical data:

Case:	ABS plastic for wall mounting
Operation Range:	Indoors between 100 and 200 m depending on ambient conditions (for range boost up to 2 pcs. further BTWL-HUV amplifiers can be used)
Power supply:	100 ... 240 V AC / 50...60 Hz
Nominal current:	50 mA
Protection class:	IP 54
Ambient temperature:	-20 °C to +50 °C
Dimensions (W x H x D):	115 x 115 x 60 mm
Weight:	300 g
