BT-ASTFR15
Digital time-/temperature display for baths

+ digital time- and tempeature display for indoor and outdoor use
+ display consists of three lines:
  + first line: time (hrs/min) or air temperature permanently or both information in rhythmic change
  + second and third line: air- and water temperature or two water temperatures
+ red LED digits with 150 mm digit height for time indication
+ red LED digits with 100 mm digit height for indication of two temperatures
+ temperature display in degree or 1/10 degree Celsius
+ visibility up to 40 m (viewing angle 120°)
+ noiseless operation
+ fixed text according to customer wishes (max. 12 characters/8 cm or max. 24 characters/ 6 cm)
+ radio remote control unit for programming in delivery included
+ radio controlled or hard-wired air temperature transmission (please see options)
+ water temperature transmission wireless only (please see options)

Technical specifications:

Housing:	Aluminium, black, with rounded edges
Protection class:	IP54
Temperature off-set:	from -9.9 to +9.9 °C adjustable
Power supply:	110…240 V AC
Current consumption:	<300 mA (at 230 V)
Operating temperature:	0…+50 °C
Humidity:	max. 93% at 40 °C
Dimensions (WxHxD):	1035 x 620 x 90 mm
Weight:	12 kg

Options:

BT-AST15-TEMP-W2F	Water temperature sensor for 869,525 MHz radio communication (set with 2 sensors and 2 thermowells)
BT-AST15-TEMP-A/F	Air temperature sensor for radio communication (1 sensor incl. batteries)
BT-AST15-TEMP/HUM-KAB5	Air temperature- and humidity sensor with 5 m cable
BT-AST15-TEMP-A/KAB5	Air temperature sensor (1 pc.) with 5 m cable
